

# Xero business plans for New Zealand from 12 September 2024

Xero is simplifying its plans to provide small businesses with easier access to the tools they need to help run their business efficiently.

## What's new

On 12 September 2024, Xero is launching three new streamlined business plans (Xero Ignite, Xero Grow and Xero Comprehensive) and enhancing the Ultimate plan in New Zealand. These new plans are designed to provide you with easier access to the tools to help run your business efficiently.

That means more key features included in plans and no add-ons to navigate. As a result, the Starter, Standard and Premium plans will no longer be sold from 12 September 2024.

## Phased move to new plans

From 12 September 2024:

- Xero will begin moving subscribers to the new plans in phases, taking into account their current plan (and any add-ons). **For the majority of customers, this will mean more features for the same or lower price when they are moved to a new plan**
- We'll be in touch to ensure you have a minimum of 60 days' notice before your plan is moved, including any information about the plan we intend to move you to
- We intend to move subscribers to new plans by March 2025
- Alternatively, you can choose to move to a new plan
- If you want to upgrade or downgrade a plan, or remove an add-on, you'll need to choose one of the new plans. If you transfer a subscription, the new subscriber will need to choose one of the new plans.
- You can still add employees to Xero Projects and Payroll on current plans until either you choose to move plans, or Xero moves the subscription to a new plan. Any additional usage charges (including in relation to Xero Expenses) will continue to apply.
- Once you've moved to a new plan, your previous plan will no longer be available and if you move to a new plan that does not contain your current add-on functionality, you will no longer have access to that functionality
- In September 2024, we'll provide more details on our migration plan and approach
